

## MARKETING INTERN

WeeWash is an award winning startup dedicated to design, manufacture and sell micro dishwashers that wash 2 meals worth of dishes, fit on the table-top of the smallest kitchens and work without plumbing installation. It also acts as a smart appliance that provides information about how much money, time, water and electricity you can save. The WeeWash micro dishwashers are 7 times smaller than a standard full-size dishwasher, 3 times smaller than a standard table-top dishwasher and still have the ability to fit frying pans, sauce pans and chopping boards.
